BRITISH TAKE SECOND LINE TRENCHES; FRENCHE GAINS IN GAS MASKS

British Are Now Attacking Third Line of Germans Around Loos Where Heavy Fighting Is in Progress—Prisoners Captured by French Include Some Recently Brought Back From Russian Front—Both British and French Have Secured Positions Dominating German Lines of Communication

By Bulletin Leased Wire.
LONDON, Sept. 28.—(1:15 A.M.)—THE TIMES' PETROGRAD CORRESPONDENT SAYS: "A REPORT, CONFIRMED FROM A MOST RELIABLE QUARTER, IS THAT THE FORTY-FIRST GERMAN ARMY CORPS WAS OVERTAKEN BY THE PROGRESS OF THE PIPEF MARSHES AND BEING UNABLE TO ESCAPE NEARLY THE WHOLE OF THE CORPS PERISHED."

LONDON, Sept. 29.—An official communication from Field Marshal Sir John French just made public dealing with the operations in France Tuesday says that in the heavy fighting around Loos the British have taken exceptionally strong German lines of trenches and bomb proof shelters several hundred yards in extent. Having taken the German second line, the statement says, the British are now after the third line of trenches. In all, more than 15,000 German prisoners have been taken, and twenty-one guns and forty machine guns have been captured and others destroyed. British aeroplanes bombarded the railway line near Bethune, wrecking a train. They also damaged the railway near Arras, and the German line of communication.

PARIS, Sept. 28.—The French troops fighting on the western front, have made further gains of ground east of Souchez and north of Maslieux, the prisoners taken including Germans recently brought back from the Russian front, according to the official communication issued by the French war office tonight.

TERRIBLE EFFECTS OF ALLIED BOMBARDMENT IS DESCRIBED

LONDON, Sept. 28.—Hester's correspondent at the British headquarters in France, in a dispatch to the Times, describes the terrible effects of the attack on the Germans, saying: "The German lines smothered in dust, their parapets melted away and their barbed wire entanglements disappeared. Those sleeping in the trenches were not favorable but before dawn a change came, and the morning broke but did not, with a slight mist which was reminiscent of the evening days of the German and Navy Chapels. The most of the German prisoners were taken in the village of Loos. The village was surrounded on three sides and the German soldiers were very heavy, entire regiments having been wiped out."

ALLIES NOW HOLD POSITIONS WHICH DOMINATE THE LINES OF THE ENEMY

LONDON, Sept. 28.—The French in the Champagne are attacking the German second line of trenches and are making further progress, but seemingly the allies' efforts are being carried out with the same impetuosity that characterized the first two days of the operations. The success now is proceeding in the main object, which is to break through the German lines, has not yet been accomplished. Both the British and the French are making progress, and by gaining the hills and crests from which they can dominate the German lines of communication. The French continue to push forward east of Souchez, aiming at the heights of Vimy, which command the plain to the east, while the British to the north are pushing forward east of Arras, aiming at the heights of the German counter-attacks.
